SUMMARY

Extraverted Frontend Developer with 4+ years of experience, specializing in Vue.js, JavaScript, and Magento for large e-commerce projects. Quick learner with strong communication and soft skills. Passionate about writing clean, maintainable code and improving project structure. I enjoy collaborating with developers and clients to ensure smooth development processes.

WORK EXPERIENCE

January 2021 - September 2024 | Front-end Developer at Vaimo, remotely

Key Contributions:

- Developed and optimized front-end solutions for large e-commerce stores on Magento, utilizing JavaScript, Vue.js, HTML, and CSS.
- Ensured high-quality, maintainable code by following best practices, conducting code reviews, and performing manual testing.
- Modernized and maintained legacy codebases, aligning them with current standards.
- Collaborated closely with back-end developers, project managers, QA engineers, and designers to deliver tailored client solutions.
- Authored technical documentation to support development and maintenance efforts.

Key Achievements:

- Successfully managed 2-4 simultaneous projects
 - Optimized codebase, improving performance metrics by 20%
 - rapala.com: Implemented accessibility, according to high USA standards
 - Within the team increased the level of client satisfaction from 10 to 30% per quarter
-

EDUCATION

September 2012 - May 2017 | Master's Degree in History

T.H. Shevchenko National University «Chernihiv Colehium»

- Developed strong research, analytical, and problem-solving skills applicable to project management and technical roles.
-
